DISTRICT NEWS:

Calendar Adjustment

This winter has brought an unprecedented number of inclement weather days – eight so far – exceeding the five built into our 2024-25 school calendar. While keeping our students and staff safe remains our top priority, we must also ensure we meet the state’s required instructional time. To put our district in the best position to meet these requirements and maintain our long-standing goal of ending the school year by Memorial Day, we are making the following adjustments:

- **Friday, Feb. 28** – The scheduled elementary teacher professional collaboration day will now be a school day.
 - **Early March high school late start changes** – There will be no late start on March 4, 6, 11 or 13. School will begin at the normal time on those dates.
 - **Friday, April 25** – The scheduled professional learning day will now be a school day for all students.

[Welcome!](#)

Mark your calendars for the 2024-25 K-5 teacher professional collaboration days.

As we kick off the 2024-25 school year, I want to remind families about the teacher professional collaboration days designed for teacher plan and collaboration time. These eight days, which occur throughout the school year, are non-student attendance days for K-5 students. These days are vital to ensure the best possible preparation for our elementary students and key to quality teacher retention.

The following days, which can be found in the [2024-25 calendar](#) on the district website, have been designated as teacher professional collaboration days:

- April 11
- May 2

Thank you for your support and partnership as we ensure our educators have adequate plan and collaboration time. Have a wonderful school year!

BVEF Innovative Educator Award
